

Portable Battery Powered LED Warning Beacons

New Vision upgrades the amber strobe light combats this situation by providing the convenience of rechargeable, cord-free operation together with LED performance and up to 6 hours of operating life courtesy of its high-quality Lithium battery.

Part No.: NV-W08R (Wireless Remote Control)

FEATURES

- 12 High Intensity LEDs produce Powerful Class 1 SAE output
- 5 hour battery run time with no cords to distract the driver
- Powerful magnet rated to 120 km/h
- Off/On weatherproof switch
- Built to last with virtually unbreakable polycarbonate lens
- No moving parts, reinforced by solid state circuitry and fully sealed (IP65) for ultimate reliability
- Simply charged via 12V cigarette lighter plug
- The keychain device that would work from 100 feet

Part No.: NV-W16B

FEATURES

- 12 High Intensity LEDs produce Powerful Class 1 SAE output
- 5 hour battery run time with no cords to distract the driver
- Powerful magnet rated to 120 km/h
- Off/On weatherproof switch
- Built to last with virtually unbreakable polycarbonate lens
- No moving parts, reinforced by solid state circuitry and fully sealed (IP65) for ultimate reliability
- Simply charged via 12V cigarette lighter plug
- ECE 65 & SAE J845 approved
